

## Light Use - Running 8 to 12 Hours Per Day

## Basic Edition Cooling/Heating System

## Model #

Optimal for users utilizing the WiFi features to set a schedule for their Cold Plunge Chiller. Performs best when set to cool the water in daily intervals of 4-6 hours at a time, once or twice a day. Although the unit can be used continuously, regular water maintenance will need to be performed more frequently. For use in cooler climates or temperature controlled environments.

**DCT - 0.8 HP Cold/Heat System with WIFI APP** DCT-SY-08-PRO

**DCT - 1.0 HP Cold/Heat System with WIFI APP** DCT-SY-10-PRO

**\*\* Note: Replaces previous "Basic Edition" Model #s:  
DCT-SY-06-HC, DCT-SY-08HC, DCT-SY-10-HC**

## Moderate Use - Running 10-18 Hours Per Day

## Standard Edition Cooling/Heating System

Performs best when set to cool the water in daily intervals of 8-10 hours at a time, once or twice a day. Although the unit can be used continuously, regular water maintenance will need to be performed more frequently. Better suited for use in warmer environments.

**DCT Standard Edition - 0.8 HP Cold/Heat System with WIFI APP** DCT-QG-10-A-08

**DCT Standard Edition - 1.0 HP Cold/Heat System with WIFI APP** DCT-QG-10-A-10

**\*\* Note: Scheduling feature not available at this time**
